Dear Friend of the Recovery Community:

*There is nothing more beautiful than a person in recovery...
the light of life shining in their eyes and beaming hope for a fulfilling future.*

Addiction is a disease that touches us all. Efforts to eliminate the stigma associated with the diagnosis and treatment of drug problems are essential.

We are creating a "Faces of Recovery" Calendar that will feature thirteen people who are graciously sharing their life stories in order to help others to understand and experience both the devastation of the disease and the miraculous reality of recovery. The calendar is a very visual example to all that treatment works and recovery is possible. We are proud to see it hanging in homes and offices throughout San Diego County as well as nationwide. Your support of this project will be recognized and appreciated.
